August 25, 2010

There have been new improvements to the SonoCheck (TI-108) product.

The new latex-free lids for SonoCheck have Gray centers in place of the Red centers.

This new version of the lid also enables a more stable SonoCheck color during storage and therefore the color is now more of a blue-green instead of a lighter green.

We have attached the New Instructions for Use and they are also available on-line at www.hmark.com.
