**Instructions for Using Product**

**Description of Use (s)**
Thermometer indicates both high and low temperatures to ensure that reprocessed items stay within a desired temperature range during transportation of goods.

**Preparation for Use**
Be sure that instrument sets and equipment are reprocessed and dry before applying.

**Diagrams (drawings, pictures):**

**Steps for Use of Product**
1. Remove adhesive and place on the desired location where temperature is being monitored.
2. When the temperature gets to 0°C, a distinct clear to red color change occurs. Conversely, when the temperature exceeds 29°C, the color changes from white to black.

**Interpretation of Results**

**Contraindications of Test Results**

**Documentation**

**Special Warnings and Cautions**
- If adhesive residue remains on the surface, may be removed with acetone or isopropyl alcohol solvent.
- May be disposed of in regular trash.
