![Figure 3](image3.jpg)

**Steps for Use of Product**

1. Unhook both bars of the stringer. Fig. 1
2. Place the ring handled instruments in the open position.
3. The rings of the instrument are put through both bars of the stringer. Fig. 2
4. When finished placing the instruments through the bars, push the bars back underneath the hooks to secure them in place. Fig. 3
5. The instruments should be facing in a forward fashion.

## Reprocessing Instructions

### Point of Use

### Preparation for Decontamination

### Disassembly Instructions

### Cleaning

- **Manual**
  
  Before initial use of the stringer, cleaning is required.
  Manually wash stringer(s) with a neutral pH detergent and warm water.

### Cleaning – Automated

### Disinfection

### Drying

### Maintenance, Inspection, and Testing

### Reassembly Instructions

### Packaging

### Sterilization

- See instructions under “Steps for Use of Product” for directions on how to string instruments.
- When using for sterilization of instruments, open to the optimal width for use in the instrument set. Consult the instrument manufacturer’s IFU for specific instructions.
- Stringer are materially compatible with steam and EO sterilization.
- Steam sterilization at 270°F (132°C) for 4 minutes or 275°F (135°C) for 3 minutes.
