Instructions for Using Product

Description of Use (s)	Use for inspection of items and other equipment.
Preparation for Use	
Diagrams (drawings, pictures)	
Steps for Use of Product	<ol style="list-style-type: none"> 1. Press the power button located in the upper right-hand corner of the microscope until the screen lights up and images appear. 2. Use the high and low magnification control on the left-hand side of the microscope to adjust to achieve desired magnification/focus. 3. To take a snapshot of the image on the screen, press the snapshot button located on the left-hand side of the top of the microscope. An hourglass figure will appear and then your snapshot will appear on the screen. 4. To view photos, press the  button on the lower right-hand side of the microscope. Navigate through the photos using the left and right arrows of the touchpad. 5. To exit the saved photos, pressure the  button again. 6. The function menu can be accessed by pressing the home/trash can button. Navigate through the function menu with the arrows on the touchpad. Select the desired function by pressing the center of the touchpad.
