## **NIC001 Sterilisation Guidelines**

Clinipak NIC001 Nic Nac Baskets are manufactured from stainless steel and can be sterilised in the same way as any other stainless steel basket for medical use.

They can be sterilised using steam (134°C), ethylene oxide and plasma sterilisation systems.

A handwritten signature in black ink that reads "Andy Wigglesworth". The signature is written in a cursive style with a horizontal line underneath.

Andy Wigglesworth  
QA Manager
