Interpretation of Results	
Contraindications of Test Results	
Documentation	
Special Warnings and Cautions	<ul style="list-style-type: none"> • Mounting to typical wall with 2"x 4" studs, there will be a thin side of the stud, approximately 1.75" to anchor to. The holes will not allow for all four to be anchored on a stud this size. It is also NOT advisable to anchor this directly to dry wall as it would probably fall off.
