The ProTech™ System
Delicate instrument damage means lost revenue and expensive repair. The **ProTech™** instrument protection system is designed to hold and protect instruments during sterilization, storage and transportation. Choose from the broadest line of trays and combine with plug-in **Secur-It™** instrument holders and silicone cushion mats to design a custom tray for each procedure. Trays are made of lightweight, durable materials that are heat and chemically resistant and compatible with steam, EtO and gas-plasma sterilization.

Laparoscopic Procedure Trays

Full Size Double Decker Lap Tray

Combine the Laparoscopic Insert with the graduated Secur-It™ holders (3, 5 & 10 mm slots) to accommodate up to 15 lap instruments. Use an optional silicone cushion mat to protect instruments in the bottom - doubling up on available storage space. Or easily install the single width Secur-Its™ to hold additional cannulated instruments. These trays are made of tough, lightweight and corrosion resistant anodized aluminum.

Code#	Length	Width	Height
DDL-1123	23.000	11.000	8.000

Bariatric Laparoscopic Tray

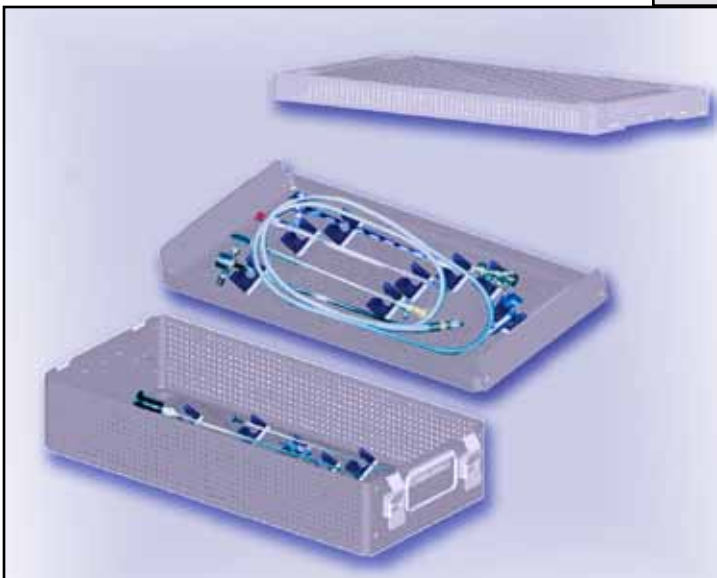

This tray is large enough to accommodate the very long instruments used in bariatric surgeries (max length 65cm). The system is made of tough, lightweight and corrosion resistant anodized aluminum. The laparoscopic Insert with the graduated Secur-It™ holders (3, 5 & 10 mm slots) is designed to accommodate up to 15 lap instruments. The double-decker design holds twice the number of instruments in the same amount of space.

Code#	Length	Width	Height
51527	27.000	11.000	8.000

Cysto Double-Decker Tray

Secur-Its™ can be placed virtually anywhere in tray for maximum efficiency. The double-decker design holds twice the number of instruments in the same amount of space. The graduated Secur-Its™ are designed to hold instruments which are from 3 to 10mm in diameter. Complete tray kit includes 18 single width Secur-Its™. Alternatively, a silicone cushion mat can be substituted for the Secur-Its™ in either the top or bottom tray to protect delicate instruments.

Code#	Length	Width	Height
CYSTO-2214B	20.000	10.000	3.500

Laparoscopic Procedure Trays

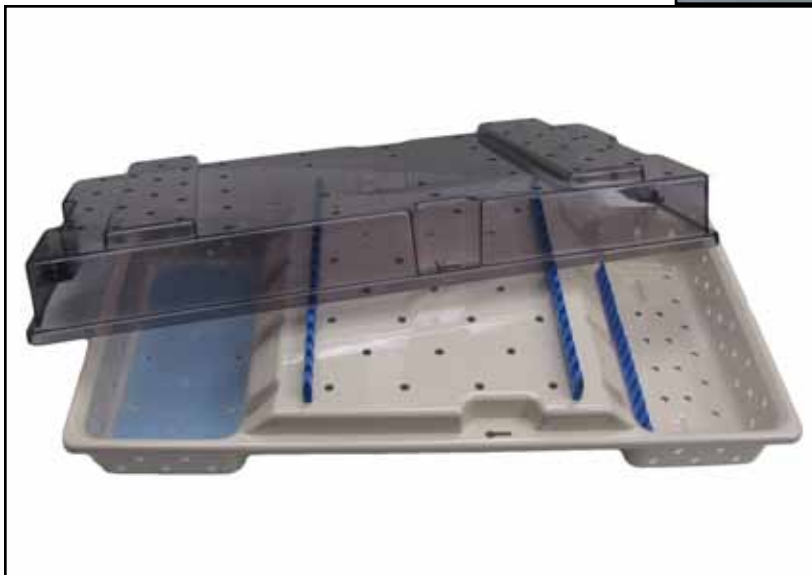

Lightweight Poly Double Decker Tray

The two level design of this tray holds double the number of instruments in the same amount of space. This tray includes the lap instrument insert that is outfitted with graduated Secur-It™ instrument holders to accommodate up to 12 laparoscopic instruments. Base tray includes a silicone cushion mat. Tray and components are made of Radel-R®, a medical grade polymer that is lightweight, incredibly strong and compatible with steam, EtO and gas-plasma sterilization.

Code#	Length	Width	Height
4-1130	20.000	10.000	6.000

Extra-Long Lap Tray

This extra long laparoscopic instrument tray holds up to 16 oversized instruments that can be as long as 60cm. The graduated Secur-It™ instrument holders are designed to accommodate instruments from 5 to 10mm in diameter. The included silicone cushion mats protect ancillary items stored in the utility spaces below the laparoscopic instruments. This tray is made of tough but lightweight Radel-R®.

Code#	Length	Width	Height
SDLP-1130	25.500	12.000	5.500

da Vinci® Arm Sterilization Case

Manufactured of tough but lightweight anodized aluminium, this tray is configured to accommodate and secure robotic instrumentation for safe steam sterilization, transport and storage. The Secur-Its™ safely hold and protect up to 8 instruments. The kit includes: 2 ea 10" 15 position universal brackets.

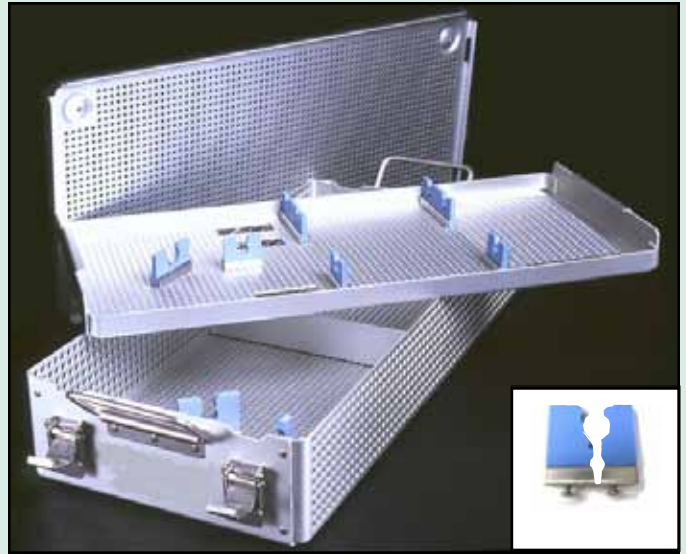

Code#	Length	Width	Height
31127 DV	27.000	11.000	3.500

ProTech™ Trays

Customizeable Full-Size ProTech™ Trays

Design a ProTech™ tray to meet your exact needs. Select from several sizes. Options include insert trays, universal instrument brackets, and silicone finger cushion mats. Trays are made of anodized aluminium with mini perforations to allow for proper penetration of sterilant. Universal instrument brackets (refer to price list for details) can be placed virtually anywhere.

Code#	Description	Length	Width	Height
30320-H	2 Level Tray System	20.000	10.000	3.500
