What are **SP D**'s?

If you're like most CS/SPD Manager's, you struggle with budgetary issues each and every day. One of them most important line items and one that is often the first to be cut is money for training and continuing education.

Healthmark has the answer!

We have developed a unique and innovative frequent purchaser program called "**Sterile Processing Dollars (SP Ds)**." Your institution will earn these **SP D** points with every purchase of a Healthmark qualifying product for your Sterile Processing Department (Central Supply, Central Service, and Sterile Supply). These points can then be redeemed for educational materials or registration to attend local and national CS and IAHCSSMM meetings.

Healthmark has teamed up with AAMI, IAHCSSMM, and CBSPD to provide the most comprehensive educational materials and programs available for Sterile Processing/Central Supply Professionals and Technicians.
