## Instructions for Using Product

### Description of Use (s)

Secure clean items in the bag for appropriate storing of medical devices to avoid environmental contamination. Not a sterile barrier.

### Preparation for Use

### Diagrams (drawings, pictures):

### Steps for Use of Product

1. Place items inside the bag after cleaning, disinfection or sterilization.
2. Self-seal items by pressing your fingers together from one size of the edge to the other. It will take around 3 minutes for the seal to set up.
3. Place in storage until use.

**Code number DC536-3M**

1. Place items in the bag after cleaning, disinfection or sterilization.
2. Fold over top of bag and seal with tape or tamper evident label.
